### Local Area Commanders Comments

#### Covid-19 Update:

During the month of September we have seen a rise in the number of people testing positive for COVID-19 and subsequent changes to legislation and guidance.

Whilst the vast majority of residents across the Scottish Borders continue to adhere to the guidelines we continue to receive calls to COVID related incidents and we fully expect an increase in calls as restrictions tighten. This picture is reflected in September's figures, we received a total of 68 COVID related calls this month which is a 126% increase in calls compared to last month.

We have placed a large emphasis on working with our licensed premises to make sure they understand and are adopting the necessary practices to operate within the current guidelines. Over the last 7 days a total of 53 licensed premise inspections were carried out in the Scottish Borders. A number of joint visits have been carried out between ourselves and our colleagues in Environmental health and Scottish Borders Council licensing department to licensed premises that were found to be breaching guidelines and a robust approach is being adopted to ensure compliance.

Officers in the Scottish Borders will continue to adopt the following Policing style as directed by the Chief Constable when dealing with COVID-19 incidents:

Engage – Establish individual circumstances and how quickly someone can comply

Explain – the risks to public health

Encourage – Voluntary compliance

Enforce – If faced with non-compliance and only as a last resort.

#### Crime figures and Incidents of Note:

The following is a list of some of the more notable incidents that we have dealt with in September:
